

FOR IMMEDIATE RELEASE

Disk Hero announces a new “Faster Application Release” with a new “Calculator”

Dublin, CA, April 18, 2008 – Disk Hero has released a new update to its main core applications. This release allows for a 25% speed improvement and the sending and receiving of files when backed up.

Disk Hero also has implemented a new automatic calculator that scans an end users system first recommending data file types to backup and calculates fees associated with the backup of these files. This makes the guess work of knowing where files are located on a PC and how much storage space is needed for the end user.

About Disk Hero

Everyone has documents, pictures, music and other important files that would be difficult or impossible to replace. Disk Hero has over 34,000 customers using a complete suite of backup solutions for individuals and small businesses. Visit www.DiskHero.com for additional information and a backup solution of your own.
