

FOR IMMEDIATE RELEASE

**Disk Hero announces “NEW SOFTWARE RELEASE FOR OPEN FILES”**

Dublin, CA, July 23, 2008 – Disk Hero has implemented a new software release that effects all types of users. In this release a new rewrite has been done to better incorporate what is known as VSS files or OPEN STATE FILES. These files are allowed to be controlled by one process or user. Example is Microsoft Outlook files; your PST and OST file extensions. Disk Hero’s new engine has speed up the process of backing up these files by 40% and allows the end user to keep the files open and in use.

**About Disk Hero**

Everyone has documents, pictures, music and other important files that would be difficult or impossible to replace. Disk Hero has over 40,000 customers using a complete suite of backup solutions for individuals and small businesses. Visit [www.DiskHero.com](http://www.DiskHero.com) for additional information and a backup solution of your own.
